

VAN BUREN COUNTY ORDINANCE TO BAN LAWN FERTILIZER CONTAINING PHOSPHORUS

ORDINANCE NUMBER 3

Adopted January 13, 2009
Effective January 1, 2010

1. Authority

This Ordinance is adopted under the authority of MCLA 46.10b.

2. Purpose and Intent

The Van Buren County Board of Commissioners finds that Van Buren County's lakes, rivers and streams are natural assets, which enhance the environmental, recreational, cultural and economic resources of the area and contribute to the general health and welfare of the public. The Board further finds that regulating the amount of nutrients and contaminants, including phosphorus contained in lawn fertilizer, entering the lakes, rivers and streams of Van Buren County will improve and maintain lake and stream water quality by reducing algae blooms and the excess growth and spread of other aquatic plants. The Van Buren County Board of Commissioners finds that unreasonable adverse effects on the environment of Van Buren County and on the public health of the citizens of Van Buren County and the visitors to Van Buren County will occur unless this Ordinance is adopted to ban and/or control the use of lawn fertilizers containing phosphorus.

3. Applicability

- (a) This Ordinance applies in all areas of Van Buren County.
- (b) Townships, cities and villages wholly or partially in Van Buren County may assume administration and regulation of lawn fertilizer application if they have adopted ordinances that includes standards at least as restrictive as those described in Sections 5 through 8.
